# Area Of A Triangle

? A triangle is a polygon with three straight sides and three angles. The sum of the angles in a triangle is always 180 degrees.
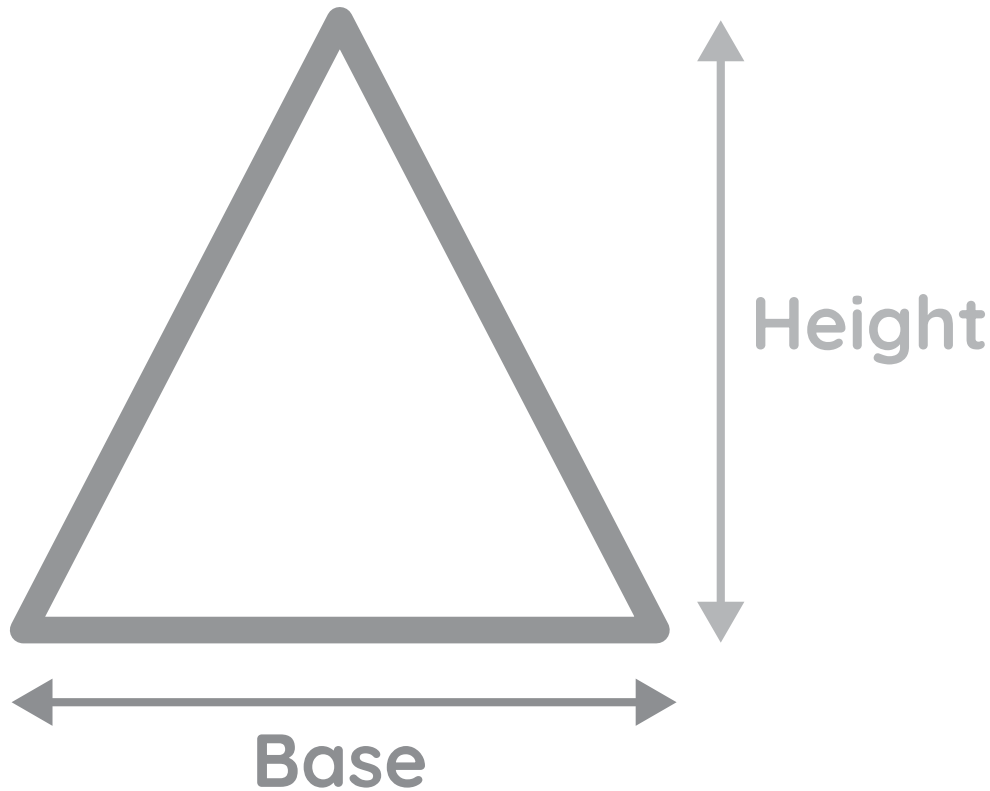

Height

Base

How to calculate the area?

$$\text{Area} = \frac{\text{Base} \times \text{Height}}{2}$$

Area Of A Triangle

SKOOLGO

? A triangle is a polygon with three straight sides and three angles. The sum of the angles in a triangle is always 180 degrees.
Height

Base

How to calculate the area?

$$\text{Area} = \frac{\text{Base x Height}}{2}$$

# Area Of A Triangle

▶ Calculate the area of each triangle:
The shapes are not proportional to the measurements, it's just for illustrative purposes.
